EDUCATION

KIT-KalaigarnarKarunanidhi Institute of Technology, Coimbatore – Tamil nadu, India	2023 – 2027
B.E. CSE (Artificial Intelligence & Machine Learning)	Current CGPA: 8.04/10.0
Core Focus: Agentic AI, GenAI Pipelines, LLM Orchestration, RAG Architecture, Neural Networks, Multi-Agent Workflows, SDLC, & Applied Intelligence	SSLC: All Pass HSC: 77.5%

EXPERIENCE

AI & ML Intern, CodeBind Technologies Private Limited – Coimbatore, India	Dec 2024
- Fine-tuned Neural Networks across 15+ edge cases, boosting precision by 22% for 86.5% High-Fidelity Intelligence. - Systematized ML-to-Production workflows, slashing deployment latency by 35% across 10+ high-volume datasets.	
Business Analyst Intern, Nandha Infotech Private Limited – Coimbatore, India	May 2025
- Transformed Power BI for Executive Intelligence, converting complex KPIs into insights with 95% accuracy. - Automated data pipelines using Python & SQL, reducing manual processing by 60% and accelerating delivery by 2.5x.	

PROJECTS

Aegis-BI-Engine Autonomous Decision Intelligence CrewAI, Llama 3.3, Groq, Power BI	Link Mar 2026
- Orchestrated a Multi-Agent pipeline using CrewAI to transform abstract inquiries into structured .csv datasets with 98% accuracy, achieved 100% of manual data curation fatigue. - Synchronized autonomous synthesis with Power BI to deliver Executive Clarity, reducing the time-to-insight from hours to <10 seconds via high-speed Groq inference.	
KAVYNTRA AI Premium Autonomous Research Suite Ollama, Qwen 2.5, Streamlit, Python	Link Jan 2026
- Innovated a Privacy-First research agent leveraging Local LLMs (Qwen 2.5) to synthesize deep technical reports, achieving 100% data soverei gnty on the edge. - Developed an Iterative Reasoning workflow that autonomously explores industry whitepapers, delivering 3+ key strategic insights per query with zero cloud dependency.	
Semantic RAG Assistant Contextual Retrieval Engine LangChain, ChromaDB, FastAPI, HuggingFace	Link Oct 2025
- Architected a Production-Grade RAG pipeline from scratch, replacing static keywords with Vector Embeddings to improve retrieval relevance by 40% over standard search. - Optimized a ChromaDB vector store to manage 500+ unstructured documents, enabling seamless Agentic Context for 100+ complex enterprise queries.	

TECHNICAL SKILLS

Languages & Core: Python, SQL, JavaScript (ES6+), OOPS, DSA
Agentic AI & GenAI: CrewAI, LangChain, Multi-Agent Orchestration, RAG Architecture, LLM-Ops, Ollama
Frameworks & Tools: FastAPI, Streamlit, React.js, Power BI, Git, ChromaDB (Vector DB)

CERTIFICATIONS & COURSES

GenAI:LLMs(RLHF/PEFT)–DeepLearning.AI+AWS	Link 2026
Agentic AI (LangGraph / Chain) – IBM	Link 2026
Agentic AI (CrewAI / Workflows) – IBM	Link 2026
Agentic AI (Vector DB / RAG) – Databricks Academy	Link 2026
Cloud Foundations – AWS Academy	Link 2026

TECHNICAL PROFICIENCY

Leetcode : Max Rating - 2020 | Top 2.28 % Globally | 320+ Problems Solved.
Codechef : Max Rating - 1668 | Solved 560+ Challenges.
HackerRank : 5-Star Gold (Python & SQL) | 1300+ Hackos | 180+ Problems.

ACHIEVEMENTS

- IBM Certified Agentic AI Architect | Licensed production-grade Multi-Agent Orchestration and Neural RAG Pipelines, specializing in 99% Semantic Reliability and high-fidelity LLM Frameworks via IBM’s Enterprise AI Suite.
- ISRO Recognized Contributor | Pioneered a high-impact Space-tech framework for the Bharatiya Antariksh Hackathon 2025 (H2S Innovation), improved mission-critical data processing architectures.
- Research Publication | Presented "Smart Library & IoT Access Systems" at the ICCCSS’25 International Conference pioneering the fusion of IoT-Edge hardware and digital cognitive intelligence.
- Global AI Strategist | Accredited in AI Prompt Engineering and LLM orchestration by the Dubai Centre for AI & Dubai Future Foundation (One Million Prompters Global Elite Initiative), optimizing LLM Steering and Autonomous AI reliability.
- Power BI Innovator | Engineered end-to-end Data Ecosystems to transform raw datasets into Executive Intelligence, accelerating strategic decision-making cycles.
- Intel AI Frontier Lead | Attained dual Intel-Digital India distinctions for mastering Ethical AI Governance and Cognitive Inclusivity, validating expertise in Global Frontier AI Safety.
